EDUCATION

Engineering Cycle - Cybersecurity	2024 - Present
Euro-Mediterranean University of Fez - EIDIA	
Preparatory Classes - Digital Engineering & AI	2022 - 2024
Euro-Mediterranean University of Fez	
Baccalaureate in Physical Sciences - French option	2022

PROFESSIONAL EXPERIENCE

IAM Intern - Identity & Access Management	August 2025
General Directorate of Taxes - Morocco	
- Deployed an IAM solution with Keycloak, SSO, MFA, and RBAC for centralized identity management. - Integrated OpenSSH for secure authentication to internal servers. - Monitored security logs through Splunk SIEM and implemented WAF controls.	

ACADEMIC PROJECTS

Decentralized Academic Assistant
Blockchain Solidity Node.js/Express AI (RAG) Smart Contracts
DApp combining Solidity smart contracts, a Node.js/Express backend, and a RAG-based AI agent to centralize and secure access to academic information.
Architecture Zero Trust (ZTNA)
Zero Trust pfSense IAM MFA VPN Network Segmentation
Implemented network segmentation, identity-based access, MFA, and continuous verification, with attack simulation and policy validation.
Pipeline DevSecOps Multi-Cloud
Node.js Docker GitLab CI/CD Terraform AWS Azure
Built a secure CI/CD pipeline with SAST/DAST controls and Terraform-based deployment across AWS and Azure.
Digital Forensics Lab - A to Z
Autopsy Volatility FTK Imager Incident Response
Performed attack simulation, memory and disk analysis, log investigation, and complete incident reporting.
Docker & Kubernetes
Docker Kubernetes Java Apache DNS/DHCP
Implemented containerization and Kubernetes orchestration with automatic scaling and supporting network services.
Kaspersky Malware Analysis
Malware Analysis Sandbox Windows Forensics
Performed behavioral malware analysis in a sandbox, including threat detection, log investigation, and evasion testing.

TECHNICAL SKILLS

Blockchain & Web3	Solidity, Smart Contracts, DApp, Node.js, decentralized architecture, RAG
Security & IAM	IAM, NAC, SSO, MFA, RBAC, Active Directory, Zero Trust, Keycloak
DevSecOps	Docker, Kubernetes, GitLab CI/CD, Terraform, SAST/DAST, Git
Forensics & Pentest	Autopsy, Volatility, FTK Imager, KAPE, Wireshark, Metasploit, Kali Linux, Nmap
Cloud & Infra	AWS, Azure, Linux (Ubuntu), Windows Server, Apache, DNS, DHCP, VPN
Programming	Python, Java, C/C++, PHP, SQL, HTML/CSS, Bash
AI & ML	Keras, Machine Learning, MLP, CNN, RNN, RAG
Networking	TCP/IP, OSI, pfSense, Firewall, IDS/IPS, VLAN

LANGUAGES

Arabic - Native | French - Fluent | English - Fluent | Spanish - Beginner
